Resort Update WITH BILL KELLY, GENERAL MANAGER

“Hello everyone, I hope all of you are doing well. As I am sure you are all aware, we are in unprecedented time during the COVID-19 pandemic.

You may have noticed something missing from this month's edition of the Birdie - our calendar of events. We are following the guidelines and recommendations of health authorities and have cancelled all of our scheduled events until early May, and we will continue to review this schedule as

information about the pandemic is released.

We all know this is a temporary situation, but unfortunately none of us know when this temporary situation will come to an end. In the time being, we will do our best to keep our community educated on what we are doing at the resort and any changes that may happen. We look forward to hosting and continuing to build relationships with our community in the future.”

Community Update

WITH
JASON ANDREW,
DIRECTOR OF
REAL ESTATE

As I know you are all aware, the COVID-19 crisis is an unprecedented and difficult time for all of us. We understand there is uncertainty and changes every hour, every day. Our priority above all else is the health, safety and wellbeing of our Team, our Members and our Community and its residents. Crown Isle Resort & Golf Community is following the recommendations and guidelines of the regional public health experts and the National Golf Course Owners Association. We are taking every precaution to provide a safe environment for our team members and trades people while keeping as many as possible employed and working to provide for their families. See crownisle.com/covid-19 for full details.

If you have been out for daily walks and some sunshine, you will notice that most construction sites are still progressing only with less trades on site at one time and while also using social distancing. We have asked our building partners to follow all protocols laid out by Health Authorities and WorkSafe BC.

Internally we continue to work on preliminary plans and approvals on several new development areas with our engineers plus local staff at the City of Courtenay. We are currently working on four different areas: The Lannan area behind Britannia Place and Corinthia Estates; Majestic Drive between holes 8, 9 & 10; the next two phases of The RISE; and the property behind Hampton Gate between holes 14 & 15. West Urban Developments has also started construction on their project behind Galaxy Motors which will bring town homes and apartments to the area

including some much-needed rental properties. www.westurban.ca

Even with all that is going on, there continues to be some sales activity within the community as potential purchasers and local residents still look to plan for the future beyond today's circumstances. Bert & Melissa with Crown Isle Realty have still been showing properties following new protocols laid out for realtors.

This is usually the part where I mention that trailers, RVs and boats cannot be stored on driveways for more than four days and need to be stored off-site following many of our residents coming home from the south or organizing for warm weather recreation. Given that it is important to note residents that have returned to Canada from overseas or the United States after the date of March 12th MUST follow the 14-day self-isolation protocol set out by the Provincial Health Officer, please have some patience with your neighbors that may be following this protocol and are waiting till the period ends before removing their trailer or RV (Sorry boat owners – no exception).

These are trying times but we will get through this. For more information regarding what is coming up, landscaping changes or building scheme issues or just to follow-up a good rumor within the Community, please email me directly at jandrew@crownisle.com. Please stay safe until our paths cross again.
